

Orthodontics

A SPECIAL COURSE FOR GENERAL AND PEDIATRIC DENTISTS

This new innovative course will be followed by a two year program providing extensive, practical hands-on instruction in orthodontics. The program will begin in 2011.

"Practical Orthodontics for the Non-Orthodontist"

Saturday, April 24, 2010
9:30 AM to 4:30 PM
CE Hours: 6.5
Tuition: \$350 plus \$50 materials fee
Course: M0424

Have you started an orthodontic program only to be stuck midway through treatment with nowhere to turn? Registrants for this course have always wanted to do orthodontics for their patients and understand your local orthodontist's work better. They want to understand occlusion better and incorporate orthodontics into their crown and bridge.

Course Highlights

- Orthodontic tooth movement principles;
- The basics of anchorage;
- Introduction to cephalometric tracing;
- Introduction to bracket placement;
- How to incorporate orthodontics into your practice clinically and financially;
- Forced eruption exercise for broken anteriors and premolars;
- Details on the benefits of comprehensive orthodontic training for doctors and their staff.

Results: Upon completion of this course attendees will gain expertise in bracket placement by participation in a hands-on exercise. They will learn to save broken teeth profitably with increased patient comfort and immediate restoration (vs. implants or crown lengthening).

FACULTY

H. Michael Sefranek, DDS earned his dental degree from the University of Connecticut's Dental School and began practicing in Manchester, Ct. He was awarded the Fellow of the Academy of General Dentistry as well as the MAGD Degree. He is a member of the American Academy of Pediatric Dentistry and has been a clinical faculty member and guest lecturer at the University of Connecticut's Advanced Education in General Dentistry Program. Dr. Sefranek is New England chapter president of the International Association for Orthodontics provides seminars in orthodontics and children's dentistry. The organization is the longest continually operating non-specialty school and study group dedicated to the latest advances in children's dentistry and orthodontics. Dr. Sefranek has been residing and practicing in Barrington, Rhode Island since 2001.

Gary DiSanto-Rose, DMD received his dental degree from the University of Pennsylvania where he also completed a general practice residency program. He is a Fellow in both the Academy of General Dentistry and the International Association for Orthodontics. He has been an active member of the American Dental Association and the New England Chapter of the IAO. He has earned over 1500 credit hours in orthodontic studies and has incorporated orthodontic treatment in his general dental practice for over 20 years. Dr. DiSanto-Rose practices in Johnstown, New York.
