Complete 2 courses within a 12-month period and earn a 50% discount on the tuition of your next lecture.

This benefit does not apply to hands-on courses.

Dental Photography with Dr. Andi-Jean Miro

Friday, March 8, 2019
9:00 AM to 4:00 PM

CE hours: 6.5
Tuition: \$295 for each
dentist by February 7
\$395 for each dentist after February 7

Attendance is limited to 25 participants.

This full day, hands-on clinical photography course combines introduction and inspiration. Participants are encouraged to bring their own camera. The following concepts and guidelines will be presented:

- camera anatomy; setting up the camera;
- controlling the F-stop;
- flash settings; ideal photography criteria;
- tips and tricks to taking perfect photos;
- managing retractors; mini pearls; and
- model photography; accessories.

RESULTS

Whether your goal is enhanced esthetic communication, improved diagnostics, or shooting great before/after shots for your website, this promises to be a fun, practical, and enjoyable day.

The course is sponsored by SurfCT and PhotoMed.

Andi-Jean Miro, DDS

Dr. Miro, of the Rosenthal/Apa group, is a true expert in dental photography. She is the youngest published author in the Journal of Cosmetic Dentistry. Dr. Miro is assistant clinical professor, New York University College of Dentistry Aesthetic Dentistry Department, and clinical instructor and lecturer at the Rosenthal Institute Aesthetic Advantage Continuing Education Program in New York. **Follow Dr. Miro on Instagram!**

Dentistry for the Older Patient to Improve Overall Health

Friday, Feb. 1, 2019 CE hours: 6.5
9:30 AM to 4:30 PM Tuition: \$335

Register by January 3 for the Early Bird Discount.

Older adults make up the fastest growing segment of the world population. The projected number of people who will be 65 or older in the year 2050 is 86.7 million, or 21% of the population. This presentation discusses the special needs of the older population, including age-related changes, medical issues, effects of medication, difficulty doing home care, and access to care.

In this presentation, you will learn:

- the challenges of treating the older patient;
- common medical issues and common oral systemic issues present in the mouth;
- how to make your office senior-friendly; and
- how to educate the older patient and work with families and physicians.

RESULTS

Attendees will learn about the special oral healthcare needs of the aging population and how to perform esthetic and removable dentistry when medical issues and dementia are present.

Arnold I. Liebman, DDS

Assistant Clinical Professor, New York University College of Dentistry; Attending Dentist, Lincoln Hospital Dental Residency Program. ALPI Dental Product Design: Product Design & Development for Dentistry. Dr. Liebman maintains a practice in Brooklyn, New York.

Basic Life Support/ CPR Certification Course

Friday, Feb. 8, 2019 CE hours: 4
9:00 AM to 1:00 PM Tuition: \$275
staff: \$195

Register by January 10 for the Early Bird Discount.

FOR DENTISTS AND THEIR TEAM

Attendees will be certified and updated on all **the most current American Heart Association guidelines in CPR and Basic Life Support.** Current guidelines on choking and proper systematic approaches to cardiac arrest and respiratory arrest are discussed. This course includes hands-on practice sessions.

You will gain Basic Life Support training that reinforces your understanding of the importance of early CPR and defibrillation. At the completion of the course you will be handed your two-year American Heart Association certification card.

Marc Reilly

President and CEO, Rescue Resuscitation Inc., which specializes in teaching CPR and Advanced Cardiac Life Support for all healthcare professionals. Mr. Reilly is a certified instructor with NREMT and was a paramedic with the New York City Fire Department for many years.

Basic Life Support/ CPR is required for New York State relicensure.

Open, Closed, or Digital?

Single and Full Arch Implant Impression Techniques and Restorative Protocols

Wed., Feb. 27, 2019 CE hours: 3
9:30 AM to 12:30 PM Tuition: \$235

Register by January 29 for the Early Bird Discount.

Implant dentistry is routine in many dental practices. **Restorative costs, however, are an unpredictable and often frustrating reality.** Parts and laboratory fees can significantly impact your bottom line. Remakes and re-impressions can cause lost chair time and lost patient confidence. Improving your impression techniques and working with your laboratory to save costs is necessary for successful implant dentistry. This course will address the beginner and the experienced provider.

RESULTS

You will learn practical techniques and suggestions for cost effective ways to restore your implant cases, from implant case planning, to impression techniques, to final insertion, without impacting your clinical outcomes.

This course is sponsored by Streamline Dental Lab.

Isaac Hakimi

Founder of Streamline Dental Lab. Mr. Hakimi is dedicated to incorporating the latest technology into the lab, including CAD/CAM design, milling and 3D Printing. In addition, he is the architect of Streamline's proprietary software that allows dentists to track cases, view case pictures, create digital Rx forms, and pay their bill online.

Advanced Adhesive Dentistry & The Supra-Gingival Protocol: For Healthier Dentistry

Friday, March 1, 2019 CE hours: 6.5
9:30 AM to 4:30 PM Tuition: \$335
staff with dentist: \$195

Register by January 31 for the Early Bird Discount.

The damage caused by subgingival margins is the under-recognized secret of restorative dentistry.

Supra-gingival adhesive dentistry uses all the benefits of modern adhesives and restorative materials, along with innovative techniques to intentionally stay above the gum line, making restorative dentistry easier, faster, and more predictable for the clinician, as well as healthier and more beautiful for the patient. The techniques presented are for all patients and all restorations.

Attendees will learn:

- breakthrough innovations in adhesive dentistry;
- a 100% successful zirconia cantilever bridge technique;
- how to never retake an impression again;
- to resolve the problem of polymerization shrinkage, and it is easy!
- simple tricks to perform adhesive procedures in half the time with excellent results; and
- two revolutionary techniques which make adhesive dentistry simple.

RESULTS

Attendees will be shown a real-world clinical approach which will demonstrate how supra-gingival restorative margins make adhesive dentistry simple and predictable.

Jose-Luis Ruiz, DDS

Director of the LA Institute of Clinical Dentistry. He has published several research papers and many clinical articles on adhesive and esthetic dentistry, and he lectures nationally and internationally. Dr. Ruiz has been named one of the "Leaders in CE 2006-2018" by Dentistry Today.

Uncomplicating Esthetic Challenges: Everything You Need to Know About Veneers

Wed., March 6, 2019 CE hours: 6.5
9:30 AM to 4:30 PM Tuition: \$335

Register by February 5 for the Early Bird Discount.

New and updated material for 2019! **This course will demonstrate the philosophies, techniques and theories necessary to implement esthetic dentistry into your practice.** Porcelain laminate veneers can be used to close extensive diastemas; straighten teeth; correct minor mal-occlusion, cross-bites, class-three, tetracycline stains, and short tooth syndromes. Veneers can be used to correct other functional concerns, make dramatic changes in tooth size, shape and color, and correct esthetic imperfections.

RESULTS

Participants will have an in-depth grasp of the importance of laminates in innovative dentistry, suggestions for troubleshooting problems, and the opportunities to grow their practice using this practical and esthetic option.

K. Michael Ghalili, DDS, MSD

Clinical Professor, Department of Prosthodontics, New York University College of Dentistry. Director, International Comprehensive and Restorative Dentistry Program, NYU College of Dentistry. Dr. Ghalili is widely published, and lectures nationally and internationally. Dr. Ghalili maintains a private practice, limited to prosthodontics and esthetic dentistry, in New York City.

My Patient Has Cancer, Now What? Dental Oncology 101

Wed., March 13, 2019 CE hours: 3
9:30 AM to 12:30 PM Tuition: \$225

Register by February 12 for the Early Bird discount.

HPV-related oral cancers are on the rise, and while cancer therapy saves lives, it results in myriad oral and dental sequelae. How do we treat them? When is it safe and appropriate to provide dental care to the head and neck cancer patient?

Attendees of this course will

- be familiar with dental oncologic issues;
- identify when to perform dental treatment on a patient undergoing chemotherapy; and
- learn the appropriate and important questions to ask the patient's oncologist.

RESULTS

Attendees will be provided with the armamentarium to treat and manage the dental patient undergoing head and neck radiation therapy and chemotherapy.

Lauren Levi, DMD

Clinical Instructor and Dental Oncology Attending, Mount Sinai Medical Center; Adjunct Clinical Assistant Professor, NYU Bluestone. She has published and lectured widely on oral cancer, orofacial pain, sleep medicine, and sleep apnea. Dr. Levi is in private practice in New York City.

Cosmetic Pearls for the General Practitioner

Wed., March 20, 2019 CE hours: 6.5
9:30 AM to 4:30 PM Tuition: \$335

Register by February 20 for the Early Bird Discount.

New material and updates for 2019! **This course is designed to help dentists who want to include more cosmetic dentistry procedures.** A Shofu camera will be available to demonstrate photography tips and techniques.

Learning objectives include:

- building confidence in your cosmetic restorations;
- the mini-prep: microdentistry without air abrasion;
- zero sensitivity tooth whitening;
- posterior composites;
- restoring fractured incisors;
- porcelain onlays and crowns;
- smile design;
- aesthetic bridges;
- porcelain veneers;
- laboratory instructions to get what you want;
- case presentation; and
- many other pearls to put into your practice tomorrow.

RESULTS

You will benefit from tips on how to perform cosmetic dentistry better and more efficiently, and what to do when things go wrong.

This course is sponsored by Shofu Dental Corporation.

Marty Zase, DMD, MAGD

Accredited Member and Past President, American Academy of Cosmetic Dentistry; President-Elect of the New England Academy of Cosmetic Dentistry. He serves on the AACD Board of Accreditation Examiners. Guest lecturer at the University of Connecticut, NOVA, LSU, and NYU dental schools. Dr. Zase has published numerous articles, and he lectures internationally on cosmetic dentistry. Dr. Zase practices in Colchester, Connecticut.

Mastering Pain Control and Anxiety in the Dental Office

Wed., March 27, 2019 CE hours: 3
9:30 AM to 12:30 PM Tuition: \$235

Register by February 27 for the Early Bird discount.

FOR DENTISTS AND THE DENTAL TEAM

There is no better marketing than a comfortable patient.

This course will present new technology and techniques for pain control and anxiety. After taking this course you will understand:

- how to identify the anxious patient;
- pre-procedural anxiolysis, including pharmacologic and non-pharmacologic methods;
- pre-procedural evaluation and signs to delay treatment;
- new techniques in local anesthesia to decrease pain, increase potency, and decrease time delay;
- current local anesthetics, maximum dosages in adult and pediatric patients;
- complications and intervention of local anesthesia and anxiolytic treatment; and
- the emergency management armamentarium.

RESULTS

You will learn about new options to help safeguard your patients' comfort and ensure a good experience.

Zev Schulhof, DMD, MD

Diplomate, American Board of Oral and Maxillofacial Surgery; clinical instructor and attending surgeon, Mount Sinai Hospital. Member, American Association of Oral and Maxillofacial Surgeons. Dr. Schulhof lectures nationally and has published articles both nationally and internationally. His practice is in Teaneck, NJ.

Contemporary Implant Removable Prosthesis: A Clinical Update

Wed., April 3, 2019 CE hours: 3
9:30 AM to 12:30 PM Tuition: \$225

Register by March 6 for the Early Bird discount.

This hands-on course will focus on implant-supported removable prosthetic treatment, allowing participants to "pick-up" attachments under faculty supervision, as well as:

- strategic placement of one or two implants attached to a removable partial denture, to create a stable and clasplless esthetic replacement for multiple missing teeth;
- the importance of RPD design;
- the surgical and prosthetic nuances of the controversial placement of four implants in the maxillary arch; and
- details of fabrication and laboratory support for the two-implant overdenture, the "standard of care" for the edentulous mandible.

Models and locator kits used in the course may be purchased separately to use as take-home study materials. Call NYCDS staff to inquire.

RESULTS

You will learn new treatments for implant supported and retained removable prosthetics, and how to incorporate these treatments into your clinical practice.

This course is sponsored by Straumann and Marotta Dental Studio.

Kenneth S. Kurtz, DDS, FACP, FRCPSS (Glasgow), FRCSI

Board certified in prosthodontics. Director, Division of Maxillofacial Prosthetics, Stony Brook School of Dental Medicine, and Director, Prosthodontic Research, Graduate Prosthodontics, Montefiore Medical Center. Dr. Kurtz is an Attending Maxillofacial Prosthodontist at Long Island Jewish Medical Center, and Clinical Professor at the Hofstra/Northwell School of Medicine. He maintains a practice limited to prosthodontics in New Hyde Park, NY.

Risk Management Course

Wed., April 10, 2019 CE hours: 4.0
9:00 AM to 1:00 PM Tuition: \$275

Register by March 13 for the Early Bird Discount.

Do you know how long you are obligated to store patient records? What information needs to be included in a medical history? How to legally terminate a professional relationship with a patient? Answers to these and other legal questions are provided. This new course is given by a dentist and an attorney whose experience extends to the fields of malpractice insurance and risk management in the dental field.

New York State dentists who complete this course

are entitled to a discount from MLMIC on their liability premiums. Check with your own carrier concerning the availability of any discount.

RESULTS

You will learn about new issues, regulatory changes, and recent trends of importance to the dental profession.

Kevin Henner, DMD

Dr. Henner has been involved in organized dentistry, professional liability, and district claims for almost thirty years with focus in ethics, malpractice and mediation. Past Chair of the ADA Council on ethics, bylaws, and judicial affairs and the New York State and Suffolk County Professional Liability/District Claims Committee. Dr. Henner maintains a private general practice in Deer Park, NY.

Michael Kelly, Esquire

Partner in the law firm Fumoso, Kelly, Swart, Farrell, Polin & Christensen LLP, in Hauppauge, NY. Mr. Kelly specializes in medical & dental liability defense cases.

SPEED LEARNING: 6 speakers 6 hours 6 credits

Friday, April 12, 2019 CE hours: 6
8:30 AM to 4:30 PM Tuition: \$99 for NYCDS members;
\$125 for all other registrants

Six new speakers! Six new topics! This full day program brings together cutting edge dental lectures featuring renowned clinicians who will provide a wealth of expertise on topics applicable to your practice. Our Speed Learning events provide an opportunity for local and national speakers to present tips and techniques in a variety of dental disciplines. Join us for a day of new ideas and learning!

RESULTS

You will take away practical ideas, new theories, and relevant concepts to support your patient care.

Basic Life Support/ CPR Certification Course
